

Important Information About COVID-19 Testing at Three of The Ottawa Community Health Centres

11/25/2020

Centretown Community Health Centre, Sandy Hill Community Health Centre and Somerset West Community Health Centre will provide assessment by a Health Care Professional and COVID-19 testing if required.

Please read the following before booking an appointment at the COVID-19 Assessment Centres:

- Testing adults and children above 6 months of age at Centretown and Sandy Hill sites. Testing adults and children aged 13 years and above at the Somerset West site. When booking your appointment, please ensure the information you are providing is exactly as it appears on your health card.
- We **can** see you if **do not have a health card**, if you are uninsured or are covered by Interim Federal Health (IFH). However, you must be living in Ontario.

The COVID-19 Assessment Centre at all of the Community Health Centres are available by appointment only. Sorry, no walk-ins.

Each individual coming to the centre for testing must have their own appointment time.

Important information about your appointment:

- Please arrive 5 minutes before your appointment time and bring your health card. You may be waiting outside until your appointment. Washrooms are not available at the testing sites. Please note that an appointment does not guarantee that you will be tested. Upon arrival at your appointment, you will be provided with a medical mask. All patients above 2 years old must wear a mask. Inappropriate language or behaviour will not be tolerated and will result in declined testing.

Book your appointment at the Community Health Centre that is the most convenient to you:
